 70100099475
 70100098737

Hints & Tips

Our basic recommendation is that you allow the print to dry out for 24 hours before finishing. If you're not able to lay out the complete strip, simply stand the prints on edge very loosely rolled up. Mesh boxes or drinks crates are perfect for placing underneath, as they allow the graphics to 'breathe'

MonoLam Laminate matt

Product Properties

Applications

- indoor
- outdoor

Properties

- permanent adhesive
- transparent

Processing Tips

We basically recommend that the print is left to dry out for 24 hours before finishing.

Storage
